## PRODUCTION CLIMBS IN CZECH LIGHT AND HEAVY INDUSTRY

FULFILL COAL PRODUCTION PLAN -- Minsk, Zvyazda, 6 Jan 51

The Czechoslovak black-coal production plan was fulfilled by 104.2 percent in 1950. A total of 18,456,452 tons were produced, representing an increase of 1,413,223 tons over 1949.

The brown-coal plan was also fulfilled.

METAL CONSUMERS' GOODS PURCHASES UP -- Prague, Hospodar, 14 Dec 50

In the first half of 1950, the working people of Czechoslovakia bought 5,000 electric refrigerators, 12,500 vacuum cleaners, nearly 6,000 washing machines, more than 7,000 electric stoves, nearly 4,000 electric egg-beaters, and 110,000 bicycles.

SKODA PRODUCES TURBINES FOR DENMARK -- Warsaw, Zycie Gospodarcze, 16 Feb 50

The Skoda plants have produced valuable electrical equipment for Danish power stations in the last few years.

Two more large turbines of 32,500 kilowatts are now being tested in the Skoda plants for delivery to the central power station of the city of Skaerback. These turbines consist of two parts and are designed for steam pressures of 76 atmospheres at 490 degrees centigrade. Czechoslovakia will also deliver to Denmark complete condensing equipment, a generator of 40,000 kilowatt amperes and 6,300 volts and a transformer to increase voltage up to 68,000 volts.
